PROFESSIONAL SUMMARY

Laravel Developer with 2+ years of experience building scalable web applications, REST APIs, authentication systems, admin dashboards, and business automation solutions. Skilled in Laravel, PHP, MySQL, React.js, API Integration, Query Optimization, and Performance Optimization. Experienced in delivering production-ready applications, collaborating with cross-functional teams, and independently handling complete feature development from design to deployment.

KEY ACHIEVEMENTS

- Developed and maintained 20+ production REST APIs
- Improved API response time by up to 30% through query optimization
- Built admin dashboards and business management systems supporting 5000+ active users
- Delivered freelance Laravel projects independently from development to deployment
- Integrated third-party APIs, authentication systems, and payment gateway solutions

TECHNICAL SKILLS

Backend:

PHP, Laravel (10/11/12), Lumen, REST APIs, JWT Authentication, Laravel Sanctum

Frontend:

React.js, JavaScript, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, Blade

Libraries:

Livewire, jQuery

Database:

MySQL, Redis

Tools:

Git, GitHub, Postman, Swagger (OpenAPI), Vite

Concepts:

MVC Architecture, Authentication & Authorization, API Security, Query Optimization, Caching (Redis), Debugging, Performance Optimization

Cloud & Deployment:

AWS EC2, Docker, Linux, Nginx (Fundamental Knowledge), Railway, Vercel

PROFESSIONAL EXPERIENCE

Freelance Laravel Developer

Mar 2026 – Present

- Developed and maintained Laravel-based business applications, admin dashboards, and REST APIs for client requirements
 - Fixing production issues, optimizing database queries, and improving application performance
 - Integrating third-party APIs, payment gateways, and email services
 - Building custom admin panels and business management modules
 - Assisting clients with deployment and production troubleshooting
 - Enhancing frontend functionality using React.js
- Worked across backend, frontend, database design, deployment, and API integration

Tech Stack:

Laravel, PHP, MySQL, REST APIs, React.js, Git

SciAstra — Full Stack Developer

Jan 2026 – Mar 2026

- Developed and maintained backend systems for an EdTech platform serving 5000+ active users
- Built and optimized 15+ REST APIs, improving response time by 30%

- Designed dynamic admin dashboards using Filament and Livewire
- Implemented role-based authentication and authorization
- Optimized MySQL queries and database structures for better scalability
- Delivered end-to-end features independently in an agile development environment

Tech Stack:

Laravel, PHP, MySQL, REST APIs, Filament, Livewire, Git

Eglogics Softech Pvt. Ltd. — Junior Laravel Developer

Feb 2025 – Jan 2026

- Developed scalable backend modules and APIs for business applications
- Implemented authentication, middleware, and API security using JWT
- Improved database performance through query optimization
- Documented APIs using Swagger (OpenAPI) for seamless integration

Tech Stack:

Laravel, PHP, MySQL, JWT, Swagger, REST APIs

LetsWrite — Laravel Developer Intern

Sep 2024 – Feb 2025

- Built CRUD modules and backend features using Laravel
- Implemented validation and authentication systems
- Assisted in API development and testing using Postman

Tech Stack:

Laravel, PHP, MySQL, Postman

Let The Trend — Web Developer Intern

Jul 2024 – Sep 2024

- Developed responsive web pages using HTML, CSS, and Bootstrap
- Converted UI/UX designs into functional web interfaces

Tech Stack:

HTML, CSS, Bootstrap, JavaScript

PROJECTS

Full Stack Job Portal

Laravel 12 | React 19 | TypeScript | MySQL | Redis

Selected Project:

TalentHub Job Portal

GitHub: <https://github.com/puneettomar31/talenthub>

Backend:

- Built scalable REST APIs using Laravel with clean architecture
- Implemented authentication using Laravel Sanctum
- Designed role-based access control for Admin, Employer, and Candidate roles
- Integrated Redis caching to improve application performance
- Implemented queues and background jobs for email notifications
- Developed secure file upload functionality for resumes and company assets
- Designed optimized relational database schema with 10+ tables

Frontend:

- Developed responsive UI using React.js, TypeScript, and Tailwind CSS
- Implemented API communication using React Query
- Managed authentication state using Zustand
- Built form validation using React Hook Form and Zod
- Configured Axios interceptors for token handling

Key Features:

- Job posting and application management
- Candidate profile and resume uploads
- Employer dashboard with applicant tracking
- Password reset and email notification system
- Role-based dashboards and access control

Deployment:

- Backend deployed on Railway
- Frontend deployed on Vercel
- Git-based deployment workflow

EdTech Course Management System

- Built scalable backend architecture supporting multi-user access
- Developed REST APIs for course management and student enrollment
- Implemented authentication and role-based access control
- Designed system to efficiently handle concurrent users

Laravel Filament Admin Dashboard

- Developed secure admin panel with role-based access control
- Built CRUD modules and optimized database queries
- Integrated REST APIs for dynamic data handling

EDUCATION

Master of Computer Applications (MCA)
Dr. A.P.J. Abdul Kalam Technical University.

Bachelor of Computer Applications (BCA)
C.C.S University.

CERTIFICATIONS

- Full Stack Development — Vidhyashala
- Web Designing & PHP Development — Aptron Solutions
