PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of experience across Laravel/PHP applications, REST APIs, MySQL-backed features, admin dashboards, and React.js interfaces. Uses AI-assisted development tools such as Cursor, GitHub Copilot, and ChatGPT to accelerate scaffolding, debugging, refactoring, and implementation, with a focus on understanding and reviewing generated code. Experience includes API integrations, authentication and authorization, query optimization, and assisting with application deployment.

TECHNICAL SKILLS

Backend: PHP, Laravel, Lumen, REST APIs, Laravel Sanctum, JWT, MVC, middleware, validation, authentication and authorization

Frontend: React.js, JavaScript, TypeScript, Blade, Livewire, HTML5, CSS3, Bootstrap, Tailwind CSS, jQuery

Database & Caching: MySQL, relational schema design, query optimization, indexes, Redis

AI-Assisted Development: Cursor, GitHub Copilot, ChatGPT; prompting for scaffolding, debugging, refactoring, and implementation support

Tools & Deployment: Git, GitHub, Postman, Swagger/OpenAPI, Vite, Docker, Linux, AWS EC2, Railway, Vercel; basic deployment experience

Testing: API and manual testing with Postman; developing further experience with automated testing

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer | Remote | *Mar 2026 – Present*

- Develop Laravel-based business applications, admin dashboards, and REST API features based on client requirements.
- Use AI-assisted tools to accelerate implementation and troubleshoot issues; review generated changes before integrating them.
- Work on third-party API integrations, payment and email service integrations, database queries, and frontend features.
- Assist with application deployment and production troubleshooting, with experience across backend, frontend, and database tasks.

Tech: Laravel, PHP, MySQL, REST APIs, React.js, Git, AI coding tools

SciAstra | Full-Stack Developer | *Jan 2026 – Mar 2026*

- Worked on backend features for an EdTech platform reported to serve 5,000+ active users.
- Developed and optimized REST API endpoints and contributed to performance improvements; validate any quantified results before using them.
- Built administration features with Filament and Livewire and worked on role-based authentication and authorization.
- Optimized MySQL queries and database structures for maintainability and performance.

Tech: Laravel, PHP, MySQL, REST APIs, Filament, Livewire, Git

Eglogics Softech Pvt. Ltd. | Junior Laravel Developer | *Feb 2025 – Jan 2026*

- Developed backend modules and REST API features for business applications using Laravel and PHP.
- Worked with JWT authentication, middleware, and API security patterns.
- Troubleshot database queries and documented APIs using Swagger/OpenAPI.

LetsWrite | Laravel Developer Intern | *Sep 2024 – Feb 2025*

- Built CRUD modules, backend features, and request validation using Laravel.
- Assisted with API development and endpoint checks using Postman.

Let The Trend | Web Developer Intern | *Jul 2024 – Sep 2024*

- Built responsive web pages from UI designs using HTML, CSS, JavaScript, and Bootstrap.

SELECTED PROJECTS

TalentHub Job Portal | Full-Stack Project | *Laravel, React*

- GitHub: https://github.com/puneettomar31/talenthub
- Project is in progress. Update the following feature list to reflect only what is implemented and working before applying.
- Planned/target areas: role-based job workflows, authentication, candidate and employer dashboards, API integration, validation, and deployment.
- Tools/technologies to list only when used in the current repository: Laravel, React, TypeScript, MySQL, Redis, Tailwind CSS, Vercel, Railway.

EdTech Course Management System | Project

- Describe only completed features, such as course CRUD, enrollment workflows, authentication, or role permissions; add repository/demo link when available.

Laravel Filament Admin Dashboard | Project

- Describe implemented admin features and permissions; add repository/demo link when available.

EDUCATION & CERTIFICATIONS

Master of Computer Applications (MCA) | *2019*
Dr. A.P.J. Abdul Kalam Technical University

Bachelor of Computer Applications (BCA) | *2017*
C.C.S. University

Certifications: Full Stack Development — Vidhyashala; Web Designing & PHP Development — Aptron Solutions
